

Look at the MOMO App – which sections are relevant to your team?

- My Worker is visiting
- Share my Good News
- Get ready for a meeting
- Prepare for a Child Protection Conference
- Change Something
- Sort out a Problems
- Planning for Adulthood
- Get ready for a Foster Carer Review

Don't worry if you're a 'technophobe' – it's likely that the child or young person can use it without you! Just introduce it to them and give them the choice to use it!

Talk to a child or young person (age 8 – 25) about the benefits for them

- They can use it on their own and communicate when they want
- They can get something off their chest
- They can give their views about their support or care
- When they want to share some good news
- They can give their views before meetings

Go on the website....

Think about the right time to introduce the MOMO App – take MOMO cards!

Try it Out – check out the Demo App (via the website) and produce a statement

Sign up for a worker account! You can create profiles for young people who have no email addresses.

Think about where you are meeting a child / young person – is there Wi-Fi ?

What device are you going to use?

Tablet?
Smart phone?
Laptop?
School computer?
