MIND OF MY OWN

## What can MOMO do for Foster carers?

- When your foster children or your own child are unhappy or have a problem they are able to use MOMO to make a complaint or send information regarding their feelings towards something, or maybe they have some good news they want to share!
- Instead of tedious social worker visits, MOMO can prepare your young person for reviews and PEP's instead.
- A young person can contact their social worker or IRO between visits.
- It is easy to use and will give your young person another way of finding their voice if they struggle to verbalise their feelings!
