

## MISSING and CHILD SEXUAL EXPLOITATION prompts for ADOLESCENT RISK MANAGEMENT PANELS and STRATEGY DISCUSSIONS

### Missing

- Link with the MCET and MCLO
- Have an agreed Missing Response Plan in place
- Know the risk level associated with your CYP and what that means (you are informed of this as they appear on the daily missing reports from the MCETs via an email from the PDOs - CSE & Missing)
- Consider mapping associates, venues, triggers – use previous return interviews to assist in this process
- Ensure CYP aware of the Young Lives Foundation and how to access support
- Consider language used as CYP do not always recognise themselves as missing, avoid cutting them off from social media by removing mobile phones on a long-term basis ...
- Address disruption tactics – interests, education, youth centres etc.

### CSE

- Complete and update regularly the CSE toolkit
- If you have ticked CSE on Liberi you must complete the eIntel form for Operation Willow (you will be prompted by email if you have not done so by the PDOs CSE & Missing)

<https://www.qes-online.com/Kent/eIntel/Live/m/eintel/public/index>

Information and guidance on completing the form can be found here -  
<http://www.kscb.org.uk/guidance/sexual-abuse-and-exploitation>

- Contact PDOs CSE & Missing to ascertain if other agencies have shared intelligence about your CYP – do this even if they have an allocated MCET worker
- Checks with sexual health clinics – this can be requested through Operation Willow
- If a sexual assault has taken place or a disclose of CSE a referral can be made to the SARC for talking therapies
- Consider the role of the sexual health worker
- What is or can be offered through the youth centres and whether locally there are any groups – equally through education provisions
- Helpful Barnardo's tools/resources to consider using which may assist with either group or individual work - Bewise which has 6 sessions aimed at 12-17-year olds and the other is a CSE & sexual health resource pack.
