

This is an explanation for [REDACTED] as to why she has a Social Worker

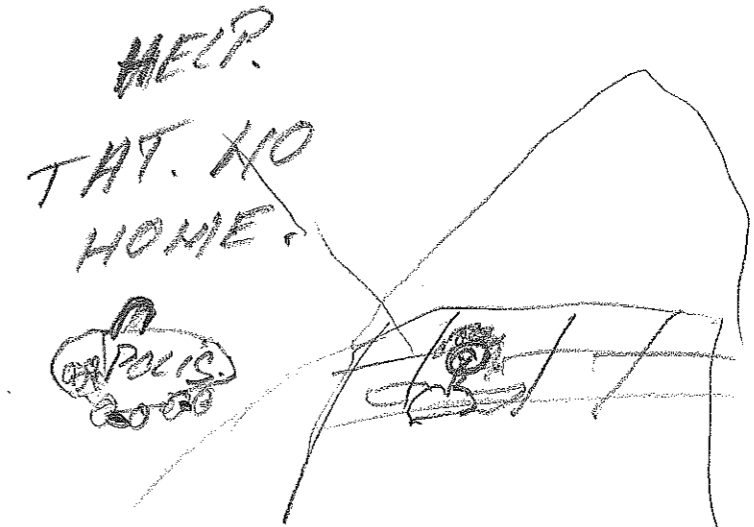

Dad and [REDACTED] travelled to the UK from Romania by coach in July 2019 in search of a better life...

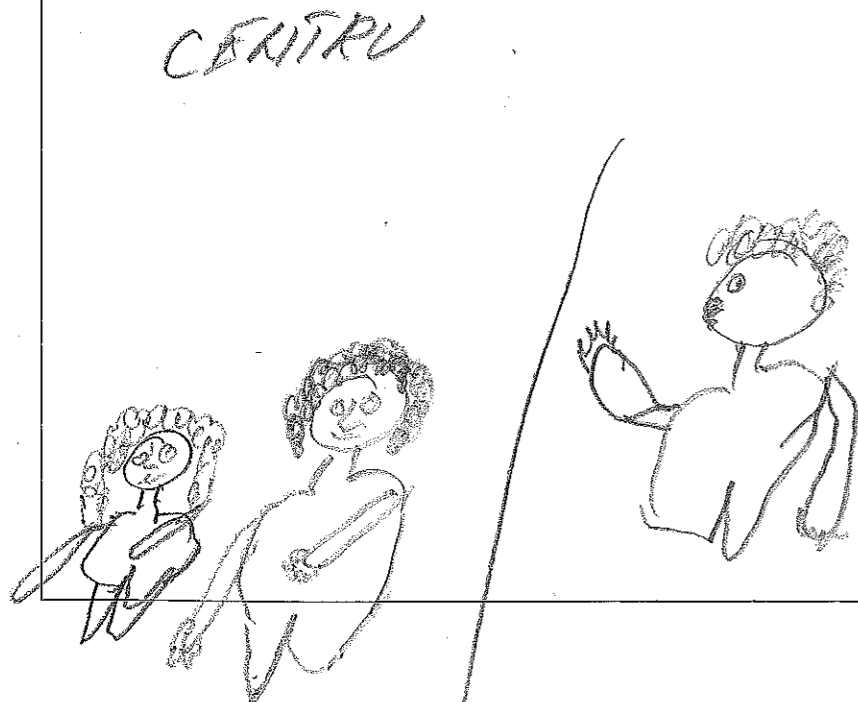

Dad worked hard but the families they were staying with took all their money. Dad wasn't happy and decided to leave. The family beat him and slapped [REDACTED]. He went to Lisa and Mike at the Council who found a flat for them and told people about what had happened to Dad and [REDACTED].

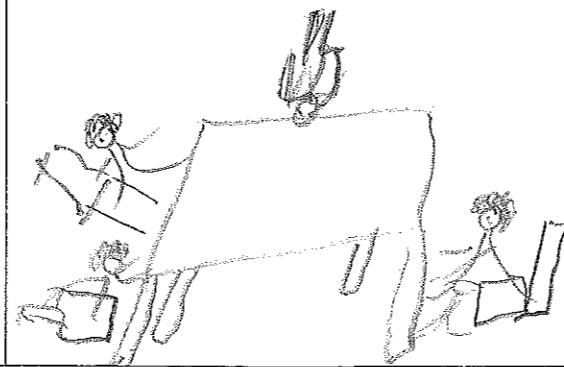

One day, because he had no money for food, Dad went out and left [REDACTED] alone so he could look for work. [REDACTED] woke up and was scared and the neighbours heard her crying on the balcony. The Police and Beth came to make sure [REDACTED] was ok.

[REDACTED] went to stay with Ann for a few days because Dad had not come home. Ann had two dogs and two cats.

[REDACTED] was very happy to go back home to Dad. Dad said he understood he must not leave [REDACTED] on her own again but he would need help because he had no money for food if he could not go out to work. Beth started visiting the family weekly to help them sort things out and found some other people who could help too.

With everyone's help, Dad and [REDACTED] can have a good life in the UK, with [REDACTED] going to school and Dad working again. When Beth is no longer worried about [REDACTED], she will say goodbye.
