

## Vision

You enjoy your childhood and have the opportunity to be happy, healthy, cared for and the best you can be.

## Principles

Develop good relationships with you and your family, putting you at the heart of everything we do

Focus on every part of your world including your family and where you live, go to school and hang out.

Work together to give you the best support and create a safe space among everyone involved in your life

### Our aim for your family

- 1 We will work with everyone in your family to make every part of your life positive and to build your confidence when dealing with others.
- 2 We will focus on what's available within your community to help your family to provide what they need.
- 3 We'll take every opportunity to understand every part of your life and we will check with you and your family regularly to make sure we are helping meet your needs.
- 4 We'll make decisions about you, with you and your family's involvement and they will be timely and in your best interests.
- 5 We will make sure that your family have the right support if it's better for you to be in our care.

### We will know we are succeeding when...

- Your family gets help when they need it and can access community resources. Your family can do well, stay safe and sort out problems quickly before they become more serious
- Your family members know they can access support when they need it.
- Your family knows who they can ask for support.
- The people we employ to work with you and your family are confident and skilled at what they do and will work well with everyone who you rely on.
- Your family relationships improve so that you can safely return to your family home.

6	We can provide somewhere safe for you to stay for a short time with support from your family	Your relationship with everyone who works with you is good and helps your family take some time off.
7	We will help you to be in a good relationship with your birth family even if you are not living at home and we'll regularly check if your family's situation has changed.	Your relationship with your family is positive and helps you understand who you are and your identity.
8	We will carefully think about the impact of all our decisions about you and how this affects your family.	Everyone we employ to work with you values learning and takes account of you and your families views before decisions about you are taken.
9	We will do more to involve your family and your friends when we think about how we support you.	The views of your family are valued by us and helps us to improve the care you receive.
