

Remand Youth Detention/Accommodation (YDA STC SCH)

Bail Recommendation module to be completed at first instance or court to inform proposed conditions/recommendations.

Ensure remand outcome is clearly recorded on the Court tab on Childview by admin.

Admin to create relevant intervention on Childview.

Admin to alert local authority partners regarding the remand and to initiate LAC process.

Allocated YJS officer to contact secure estate/care home and arrange an in person initial planning meeting within 5 working days or before the next hearing. Parents/Carer and social worker should be invited to attend.

During the initial planning meeting the YJS officer and all other professionals present should consider the package of support for the child focusing on the immediate concerns and risks. The discussion should also explore bail options for the next hearing.

Within 10 working days of the initial remand the YJS officer should attend a Remand Planning meeting to develop a plan to support the child during the remand period. This meeting should coincide with an initial LAC planning meeting where possible.

Remand planning meeting should be organised by the secure estate and take place a minimum of every 4 weeks.

The child should be visited by YJS staff or a partner agency (e.g. Social Care) at least monthly and this meeting should be distinct from the remand planning meetings.

Should the secure estate identify an increased risk either towards or from the child, a risk management meeting can be scheduled by the secure estate.

Throughout the period of remand the YJS should continue to consider alternative options e.g. Remand to local authority accommodation/Bail Supervision and Support Package (with and without intensive supervision and surveillance) whilst working in conjunction with the child, defence solicitor and other relevant agencies.

The YJS officer should ensure that all remand meetings are clearly recorded on Childview.

Where a child is known to YJS, the ASSETPLUS should be case staged as **Bail Recommendation** and updated accordingly.

An ASSETPLUS **Bail Recommendation including custody module** should be fully completed within 20 days of the initial remand where a child is not known to YJS.
