All children will have an allocated permanence	Team Manager	Mosaic
social worker to lead on family finding within a	-	
week of Best Interest Decision. The BID and	Permanence Social Worker	
family Finding plan will be documented on the		
child's mosaic file by the Permanence Team		
Manager		
In most cases this will be the same social worker		
that completed the child permanence report,		
who will already have a relationship with the		
child and carers.		
The permanence social worker will make contact		
with the foster carers and arrange to share the		
'Foster Carers Adoption and Profiling Pack'.		
The Permanence Social Worker will complete a	Permanence Social Workers	Mosaic
family finding profile for the child. This will be		
completed and visible on Linkmaker 4 weeks	Foster Carers	 Linkmaker
prior to final hearing. The profile will be		
anonymous before Placement Order. The profile		
will only be made visible to be FAL adopters at		
this stage.		
The profile will be written by the permanence		

social worker and completed with input from		
foster carers. The permanence social worker will		
complete a profiling visit to the child, even if		
they wrote the CPR, as this ensures they have		
the most up to date detail as it can be some		
time between Best Interest Decision and family		
finding beginning, this is dependent on the court		
proceedings timetable.		
A copy of information about the child included		
in the profile will be shared with the foster		
carers securely and also uploaded to the childs		
mosaic file.

meeting.		
Following this meeting we will discus the setting up of a whatsapp group. We use Whatapp as means of establishing contact between foster carers and adopters between meet and greet and introductions. This is discussed in advance and boundaries agreed before establishing the group. This is aimed to enable those caring for the child to share softer information, key development information, photos and day to day information relevant to the child's lived experiences. Adopters may wish to ask questions that would support their preparation for the children on this forum. This is not to facilitate face time contact with the child or to talk about issues specific to care		
proceedings or birth family.		
Medical Consultation will be attended by the permanence social worker and the adopters and their social worker. This is an opportunity to meet with the medical advisor and talk though the available medical information and background including any future risks around health and development and relevant health care planning. This is a chance for adopters to ask any questions they have directly to the medical advisor.	Permanence social worker Adopters and their social worker	 Medical Advisor will write a letter to adopters and the child's social worker following this meeting detailing the discussion and this will be saved onto the child's file. Social worker to record detail of the meeting and any recommended actions or follow ups required.

The permanence social worker must share the updated CPR with the medical advisor at least a week prior to the medical consultation.		
Bump into meeting – sometimes called a chemistry meeting by other agency's This is a formal part of the adoption matching process but the experience will be that of an informal meeting with the child present – for example playing in the park with foster carers, or a visit to the home with very young babies. This offers the adopters a chance to see the child's play and interaction and offers a change to put 'into life' some of their specific needs, communication or behaviours'. The adopters social worker will support the adopters and use the space as a an opportunity for reflection. This is not an extension to introductions and is not for adopters to start to take part in caring for the child. The details of this meeting are always planned in advance and will reflect the child's wishes and feelings within the planning and appropriate boundaries to agreed in advance.
