(Freephone 24 hrs a day)

(this number will NOT appear on a telephone bill)

In an emergency ring the police on 999.

# WE WANT TO HELP YOU!

A guide to child protection enquiries for young people

[www.stscb.org.uk](http://www.stscb.org.uk)

# NOBODY SHOULD HURT YOU.

## Why have we given you this leaflet?

Today you may have felt frightened and confused. We've written this leaflet to answer some of the questions you may have. The most important thing to remember is that you have done nothing wrong. You are not in any kind of trouble. We want to see if you need our help.

## Who are we?

We are Social Workers. Our job is to listen to what you want to tell us. Sometimes a police officer will come with us. Don't be afraid to ask us questions at any time and to say what you think should happen.

Our phone numbers are on the back of this leaflet.

# YOU HAVE DONE NOTHING WRONG.

## Why are we talking to you?

We talked to you today to make sure you were OK. Sometimes adults or other young people hurt children or make them feel bad and afraid. This is not OK. No one should hurt you.

## What will happen now?

We talk to lots of children and young people. They all have different things happening in their families so what happens next will be different for everyone. Sometimes it might be a good idea to see a Doctor to check that you are OK.

## Maybe you are worried about what will happen to your family?

We understand your worries but we have to find out more about you and your family before we can tell you what will happen.
