**B SAMPLE INFORMATION**

Important information for donors when a test has been sent to a laboratory for confirmation.

Your B Sample will be sent to the Randox laboratory and stored for one year, unless it tests negative, in which case it will only be stored for 4 weeks.

If you dispute the result of your A Sample and wish for your B Sample to be tested independently this can be arranged at a cost to yourself. To request this you will need to make an initial request to Nottinghamshire County Council in writing. An invoice will be sent to you and the B Sample will only be tested once this has been paid.

Prior to testing the B sample, you will be provided a list of approved laboratories by Randox. You will need to choose one of these for your B Sample to be forwarded to for testing.

If you do not wish for your B Sample to be stored by Randox laboratory for the time scales listed above, you can request this is destroyed immediately. Any request of this nature will need to be in writing and given to your social worker, who will forward the request to Randox.

I	<i>(donor name in block capitals)</i>	confirm that I have read the above information in relation to my B sample.
